CULTURAL AND RELIGIOUS RESOURCES FOR MUSLIMS IN WINNIPEG

Muslim immigrants started arriving in Manitoba in the mid-19th century from Lebanon, Turkey and Egypt. Most were farmers and ranchers who settled in rural areas. Muslims from other parts of the world came in the 1950's and today there is an estimated population of 15,000, mostly in Winnipeg.

While many Muslim Manitobans are immigrants and refugees, some are second and third generation Canadians, converts and children of converts. Some are here on student or business visas and as temporary workers.

Manitoba's Muslims are culturally and racially diverse. They come from 54 countries and speak approximately 40 languages. Manitoban Muslims are contributing members and engaged citizens and we welcome newcomers to our city and province with best wishes and supports as Ansars
